

Summit ARCHITECTURAL UMBRELLAS

The peak of protection

www.shadesmart.com.au

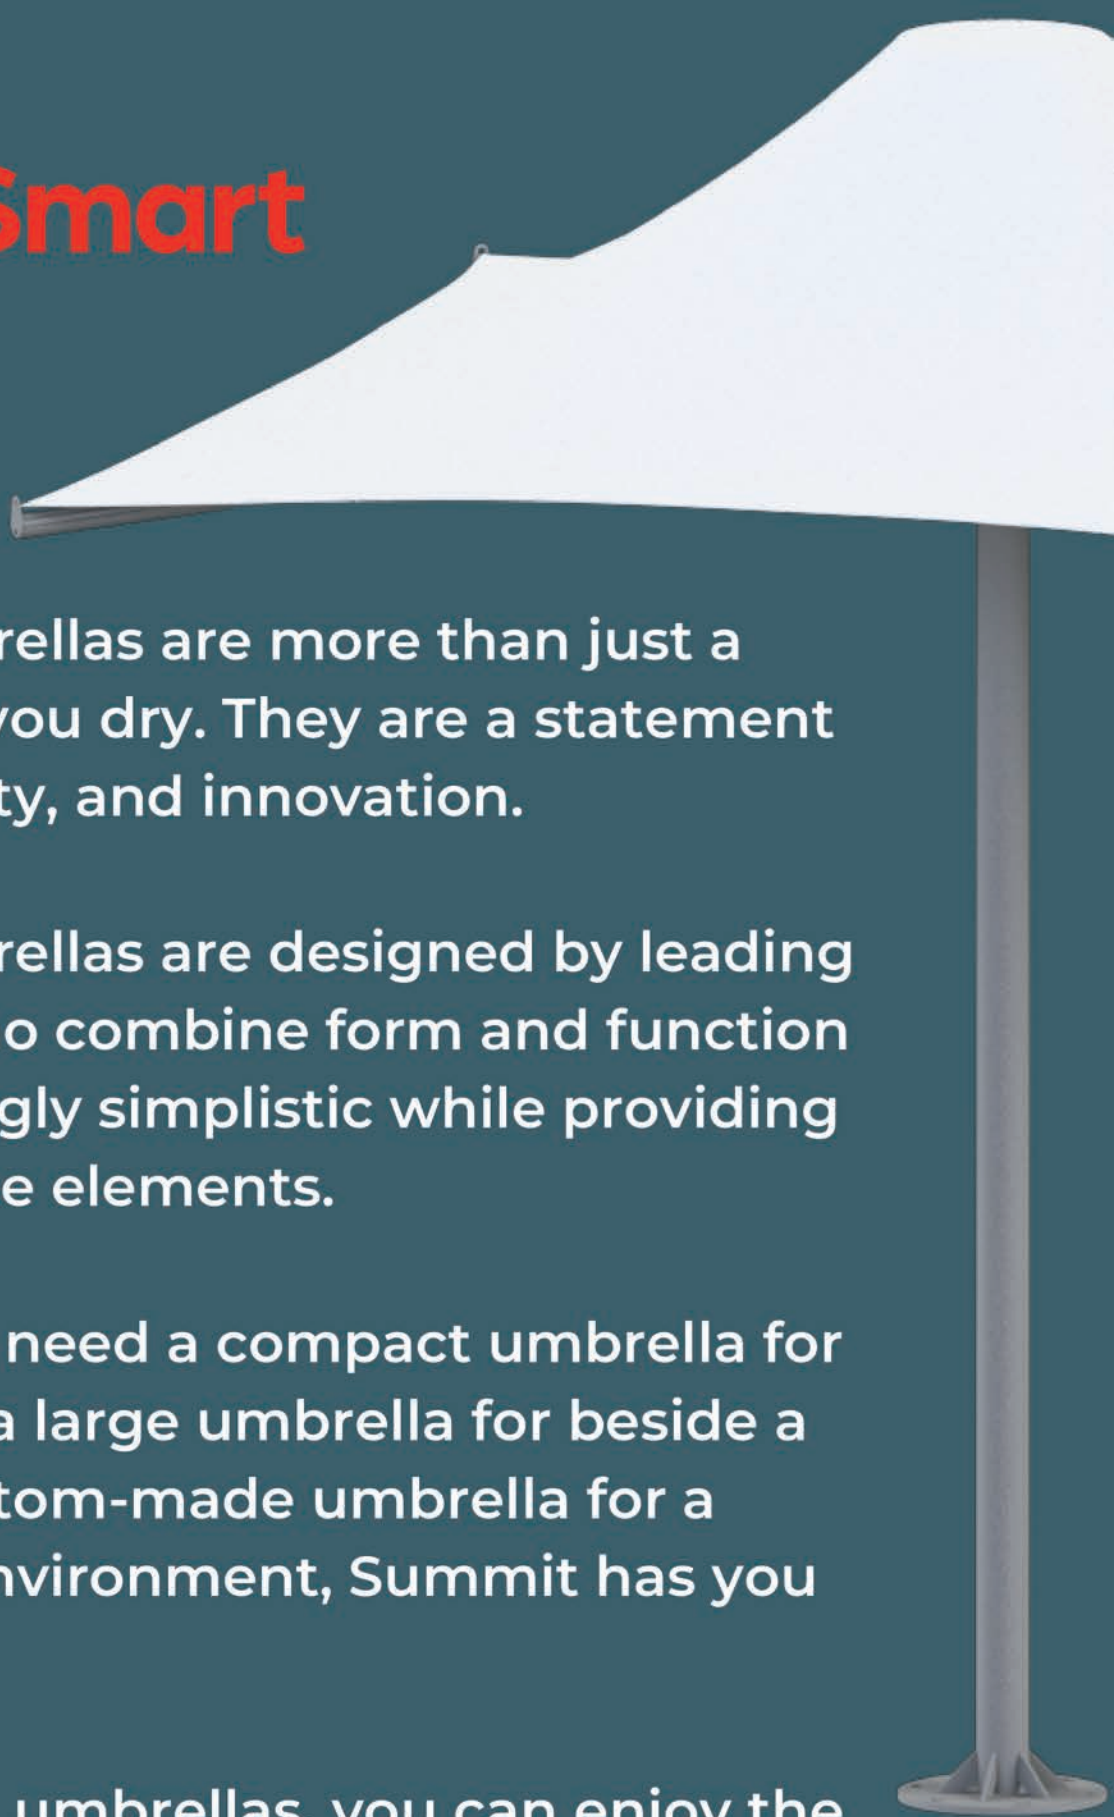

Summit umbrellas are more than just a way to keep you dry. They are a statement of style, quality, and innovation.

Summit umbrellas are designed by leading engineers who combine form and function to be stunningly simplistic while providing cover from the elements.

Whether you need a compact umbrella for a small area, a large umbrella for beside a pool, or a custom-made umbrella for a specialised environment, Summit has you covered.

With Summit umbrellas, you can enjoy the rain or shine with confidence and elegance.

DESIGNED FOR STYLE

Summit umbrellas are not just practical, they are also beautiful. Designed to enhance the look and feel of any outdoor space with their architectural style and extensive range of colours. Whether you want to create a cozy and inviting atmosphere for your cafe customers, a relaxing and refreshing oasis for your poolside guests, a fun and lively playground for your school children, or a serene and scenic retreat for your park visitors, Summit umbrellas can help you achieve your vision. Summit umbrellas are made from durable and weather-resistant materials that can withstand the elements and last for years. They are easy to install and come in various sizes to suit your needs. With Summit umbrellas, you can transform any outdoor area into a stylish and stunning destination.

ENGINEERED FOR LONGEVITY

One of the most important features of Summit umbrellas is their durability. They are designed to last years, even in harsh weather conditions. Summit umbrellas are made from high-quality steel, which is strong, rust-resistant, and heat-resistant. The steel frames are hot dip galvanized, meaning they are coated with a layer of zinc that protects them from corrosion and wear and tear.

Summit umbrellas are engineered to a minimum of W41 rating, which means they can resist winds up to 148 km/h. With Summit umbrellas, you don't have to worry about replacing or repairing your umbrellas every couple of years. These points combined enables Summit umbrellas to receive a 10 year structural warranty AND a 10 year fabric warranty*.

*Fabric warranty is based on standard range and is subject to change based on fabric selection.

DELIVERED WHEN YOU NEED

Summit umbrellas have the best turn around times in the industry, with a time frame from order confirmation to delivery being no more than six weeks on stocked sizes.

That means you can order your umbrella today and have it installed in less than two months. How do we do it? Summit umbrellas are made in Australia, using local materials and labour. We have a state-of-the-art manufacturing facility that can produce high-quality umbrellas in large quantities and at a fast pace. We have a dedicated customer service team that can process your order quickly and efficiently. We will confirm your order within 24 hours and provide you with an estimated delivery date. We will keep you updated on the status of your order and answer any questions you may have along the way. Shade Smart also have a network of trusted delivery partners that can transport your umbrella safely and securely to your location. We will ensure that your umbrella arrives in perfect condition and ready to be installed. We can also help you with the installation process, if needed, through our network of installers. Don't waste your time and money on other brands that make you wait for months. Order your Summit umbrella today and experience the difference!
